

# BLOOD SERVICES UPDATE

**December 27, 2018**

## **Email Encryption for IRL Final Result**

Effective January 4, 2016, the Immunohematology Reference Lab (IRL) will implement the use of encrypted email to provide the **final** Versiti Indiana IRL report. The encryption does not require reports to be password protected. This update will simplify receiving emailed reports.

If your facility prefers to receive final reports via fax, then this practice will continue. However, we strongly encourage your facility to receive final reports via email. If you would like to update your preference, please contact the Laboratory or Kasia Bielen.

Preliminary and simple final case reports will continue to be faxed to the ordering facility lab at the end of testing, per current practice.

Please contact Kasia Bielen, Manager, Immunohematology Reference Laboratory at (317) 916-5035 ([kbielen@versiti.org](mailto:kbielen@versiti.org)) or call the lab at (317) 916-5188 ([reflab@versiti.org](mailto:reflab@versiti.org)) with any questions regarding this update.

Thank you for your continued support of Versiti Indiana, Inc.
